User Stories

System Admin User

As a system admin, i want to be able to configure user settings so that i can control access

As a system admin,i want to be able to add new users when required so that i can mange the user information

Client User

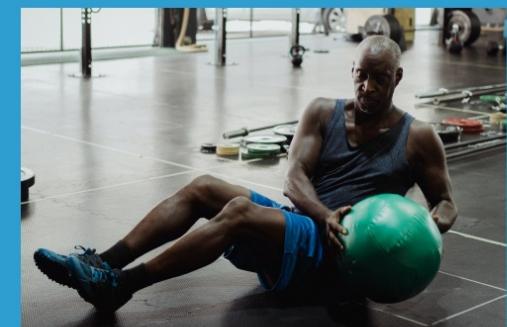

Client User

As a potential customer,i want to read product reviews so that i can decide which one to buy

As a user, i want to be able to cancel my order at anytime easily so that i don't lose all the money if the product is not satisfied

As an registered user,i want to order the products via credit card, so that i can send it as gift to my friend directly

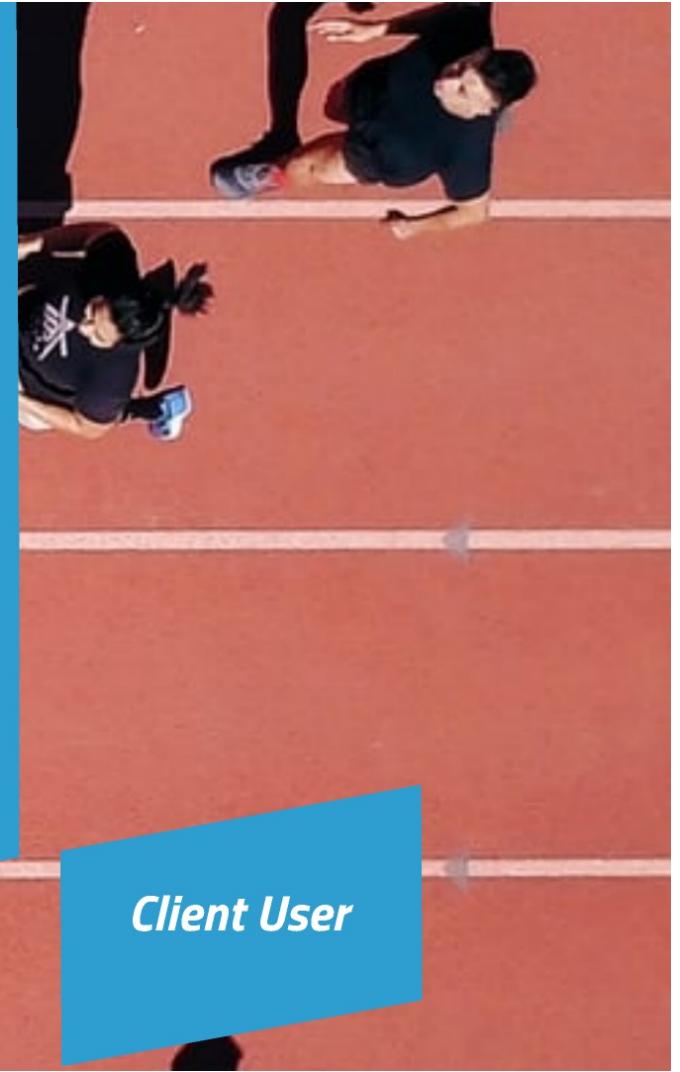

System Admin User

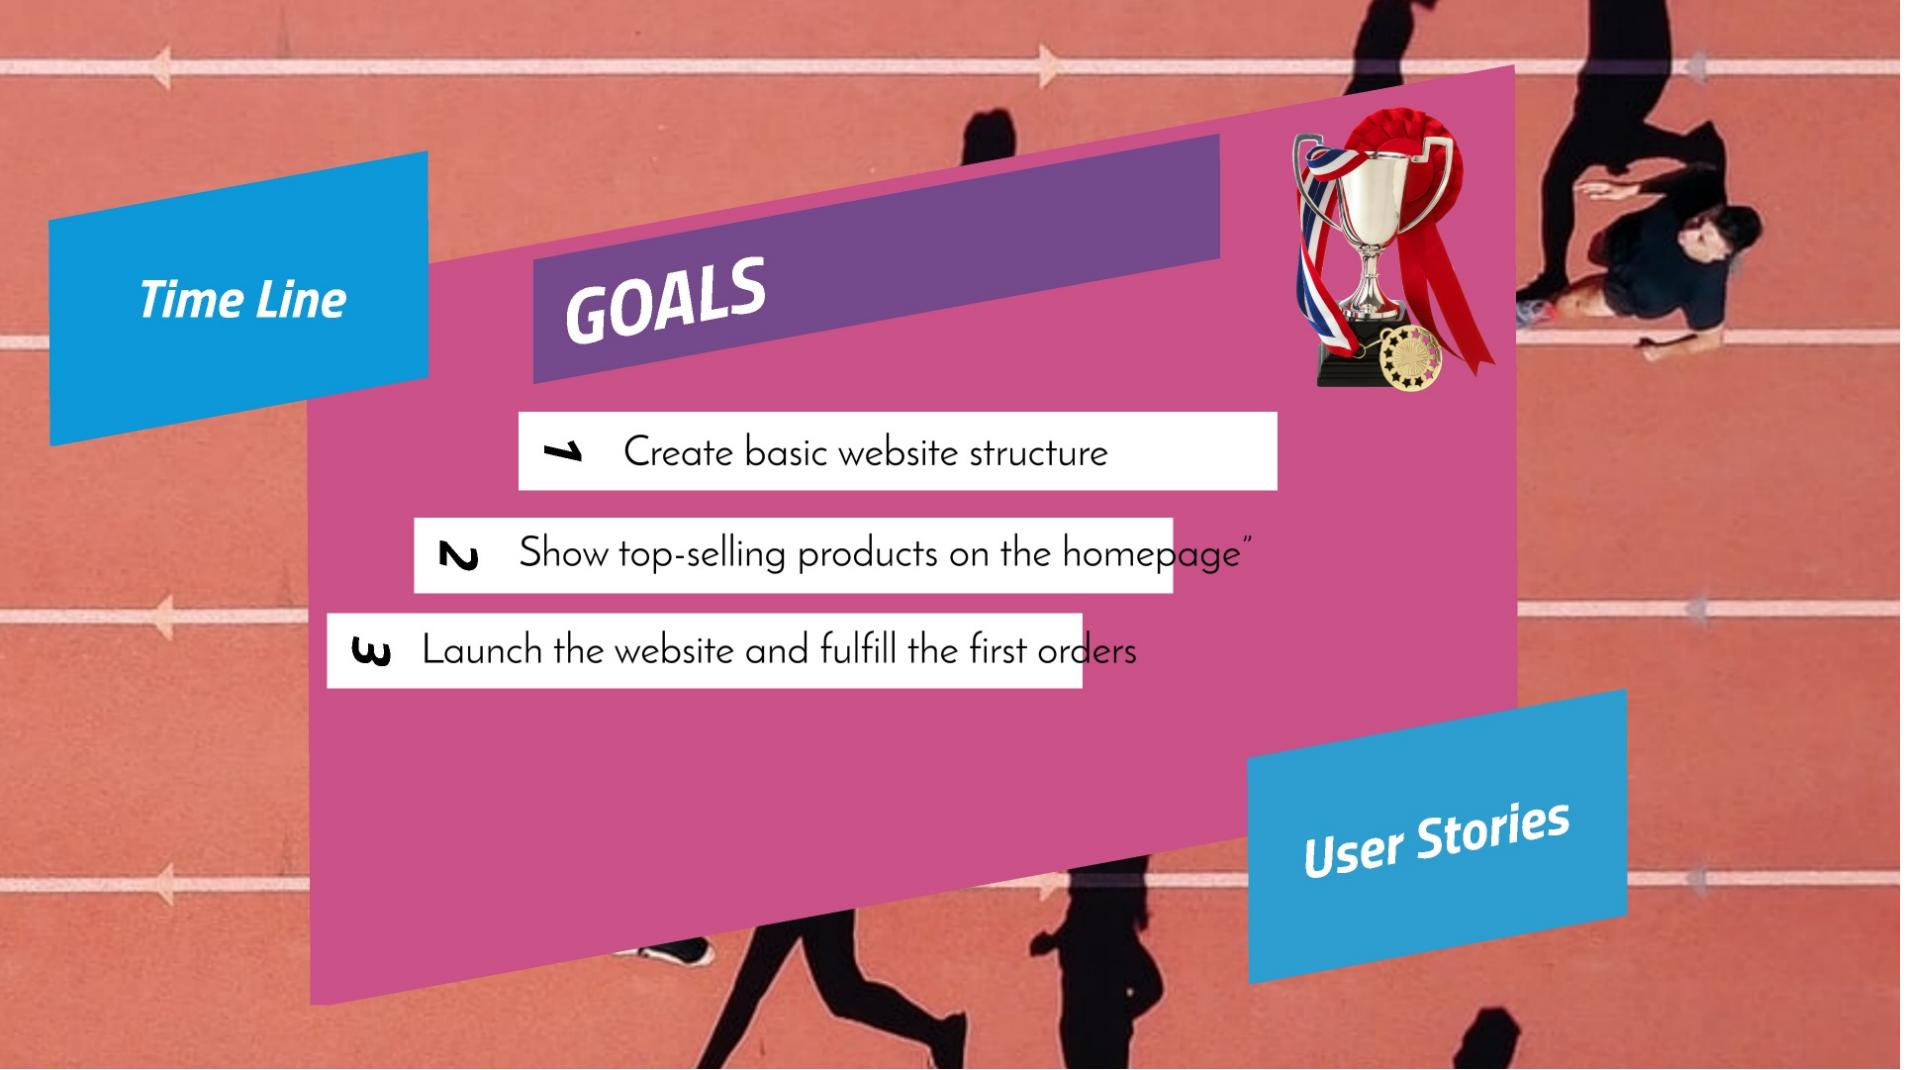

As a system admin, i want to be able to configure user settings so that i can control access

As a system admin,i want to be able to add new users when required so that i can mange the user information
